Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 October 2005.

DETAILED ACTION

Information Disclosure Statement

1. The article 7 of the information disclosure statement filed 3/6/2006 has been placed in the application file, but it has not been considered as to the merits because it does not comply with 37 CFR 1.98 b5.

Specification

2. The disclosure of the specification filed 10/3/2005 is objected to because it does not contain background of the invention, field of the invention, summary of the invention, Description of the invention (see MPEP 608.01).

ABSTRACT

3. The abstract of the disclosure filed 10/3/2005 is objected to because it contains improper format. Correction is required. See MPEP § 608.01(b).

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

The phrase "Figure 2" should be deleted.

Claim Objections

4. Claim 1-5 are objected to because of the following informalities:

Art Unit: 2836

Claim 1, line 1, "the reclose time" should be "a reclose time", line 11, "the interruption" should be "an interruption", lines 24, 26, 28, "the voltage" should be "a voltage", lines 25, 27, 29, "earth" should be "ground". Appropriate correction is required.

Claims 2, 3, the phrase "preceding claim" should refer to "numbered claim".

Claims 4, 5 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim should refer to other claim in the alternative only See MPEP § 608.01(n). Accordingly, the claims 3, 5, have not been further treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 10, the phrase "enabling the interruption of any current..." is unclear.

Claims 1-5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion
